The Director
Central Intelligence Agency

Washington, D.C. 20505

5 February 1979

Dear Norm,

Thanks so much for your letter--it was good to hear from you. It's been some time since we've been able to sit down and just chat. I did have an opportunity a couple of months ago to talk to the AMP Class at Harvard. It was interesting to be on the other side of the questions.

Your trip in March and April sounds as though it will be an exciting and interesting one. I hope you will be able to tie China into your itinerary. In that vein I have enclosed some unclassified excerpts we have gleaned from several publications available to us here at the Agency. I understand our office in your area has already furnished you with some basic data on Chinese trucking personalities and plants. These additional publications may be of help to you in determining trends in the trucking industry there and the types of vehicles in their inventory. As you may surmise, our information in nearly all areas of industry in China is still rather sparse. Nevertheless, please do call on us for any other information of an unclassified nature which you think we may be able to provide.

My best wishes for a most successful trip and please do give me a ring if you pass through Washington on your travels.

All the best.

Yours,

STANSFIELD TURNER

Enclosures

Mr. Norman B. Chew
